REASONS FOR ALLOWANCE

Acknowledgements

1. Applicants' amendment filed **12.10.2009** has been entered. Accordingly, **claim 1** has been amended, **and claims 17, 22 and 23** have been cancelled.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

In the title:

The application has been amended as follows: the title has been changed to:

--Television and Lifetime estimating method of a television--

Examiner's Statement of reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

The most relevant reference is the **Cheung [US 6,524,872]** reference. Cheung's invention relates to the measurement and monitoring of plasma-damage, and to the evaluation of the lifetime of integrated circuits under nominal operating conditions. Cheung discloses a method which calculates the intrinsic, or damage-free, lifetime of a particular transistor device by measuring the change in transconductance as a function of time for a given device over a short period of time [see the abstract].

However, Cheung neither anticipates or fairly and reasonably teaches as to "the determination of a remaining life of an integrated circuit"; "estimating a remaining life of the television"; "evaluating the total current-ON time of a completed device in use by consumers"; and "information indicating whether the total current-ON time of the television has exceeded the predetermined lifetime of the transistor".

Thus, the combination of claimed features is not disclosed in a reasonable manner.

The cited but not applied NPL document art "The similarity and heterogeneity theses in studying innovation Evidence from the end-of-life vehicle case" by Frank Den Hond. Technology Analysis & Strategic Management. Abingdon: Dec 1998. Vol. 10, Iss. 4; pg. 529, 15 pgs.

However, Den Hond neither anticipates or fairly and reasonably teaches as to "the determination of a remaining life of an integrated circuit"; "estimating a remaining

life of the television"; "evaluating the total current-ON time of a completed device in use by consumers"; and "information indicating whether the total current-ON time of the television has exceeded the predetermined lifetime of the transistor".

Thus, the combination of claimed features is not disclosed in a reasonable manner.

For this reason, **claims 17 and 22** are deemed to be allowable over prior art of record and **claims 18-21 and 23** are allowed by dependency.

Any comments considered necessary by the applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reason for Allowance".
